

University of Great Falls ALUMNI DIRECTORY

Your Alumni office has recently launched the 2015 Alumni Directory project. We are excited to be compiling an updated Alumni Directory with the goal of keeping our community connected.

What we are asking of our Alumni is to answer the call from our partner, Publishing Concepts, Inc. (PCI), to help update your current information. This is your opportunity to share you contact information, more importantly, let us know where life has taken you on your *uncommon* journey once leaving the University of Great Falls.

What can you expect?

PCI has recently sent postcard and email communications encouraging you to reach out to one of our representatives. They will ask you to provide updated contact information. You might see several postcards or emails sent your way as a reminder to share your information to ensure our directory is not only current, but also represents all Alumni of our University. If PCI has not heard from you at the end of the postcard campaign, you will receive a call from the representative. Once you have shared your information, all you have to do is decide if purchasing the directory is right for you. You will not receive any further communication from PCI.

What is the value of making the call?

Updating your information allows you to be included in our comprehensive list of students who have attended the University of Great Falls, previously known as the College of Great Falls.

Searching out past classmates will be easy once the directory is made available for purchase. You can find your peers who you may have lost track of as life progressed.

As is true with all our Alumni, you will have the opportunity to share your current profession which will help create a great networking opportunity for our community.

Receive updates on the University of Great Falls as we continue to thrive.

Be informed about exciting events being held on campus hosted by our Alumni office.
