

VERY AFFORDABLE

A full 95% of our students receive financial aid. Next year, our University will provide nearly \$8 million in scholarships. We offer scholarships for all kinds of students and activities, including choir, speech and debate, and Courage Awards for students of high character who need a little extra help. Catholic students are eligible for a special scholarship.

We also offer a scholarship for students from Great Falls and the surrounding area, known as the Great For Great Falls Scholarship.

A strong student from Great Falls will find attending the University of Great Falls more affordable than attending a large public university.

A CATHOLIC UNIVERSITY THAT SERVES ALL

We are motivated by our belief that each of us is made in the image and likeness of God. We believe each of our students is a remarkable person. Our goal is to help each student succeed in life intellectually, emotionally, and spiritually. We search for the truth by using reason and faith to understand deeply. We live and learn in community. Our community reveres faith.

CORPS OF DISCOVERY

The Corps of Discovery is a self-discovery experience, a Montana experience. We take the entire freshman class on a camping trip. We float the Missouri River together; we ski and snowshoe. Every weekend our students do something interesting and fun. During the course of the week, the Corps of Discovery meets in smaller groups to talk about ideas, values, and virtues. We are intent on helping our students develop an "inner life," especially the abilities to reflect and hope.

UNCOMMON COURAGE

We seek to build courage in men and women. The intellectual life is one of openness: a mind open to new ideas and new people. It takes courage to be open. In an age of doubt, it takes courage to believe. It takes courage to see the world as a good place, to act compassionately, and to serve others. Succeeding in life takes courage, but don't worry – we have plenty of courage to share.

FOCUSED ON LEARNING

Our average class size is 14. Our professors know our students' names, their ambitions and dreams. We are all about discovering that moment when a student wants to explore more deeply or sees the connections between two completely different ideas. We recognize students learn differently. We learn by getting outside our comfort zones and testing ourselves. Our students learn through undergraduate research projects, our study abroad program, internships, integrated learning communities, and service projects. They learn about the world around them and they learn about themselves.
